About SOTI Inc.

SOTI Inc. develops industry leading technology that solves the unique challenges involved in deploying, managing, securing, supporting and tracking remote mobile and desktop computing devices.

Today over 75,000 customers around the world in retail, manufacturing, health care, government, logistics and other industries rely on SOTI products to reduce costs by allowing them to centrally manage, secure and support their remote mobile field-forces.

SOTI works closely with the top manufacturers of Windows Mobile hardware and software, and has strategic relationships with companies such as Microsoft, Intermec, Honeywell (formerly Hand Held Products), Motorola, Palm, Psion Teklogix, etc. SOTI's world class technology is second to none, and is licensed by top mobile device hardware & software brands.

SOTI's technology has won numerous awards and accolades such as:

- 2008 Winner of the Microsoft Partner Program 'Mobility Solution of the Year' Impact Award
- 2008 Winner of the 'MobileStar' Best 'Encryption or Firewall Security' Award
- 2008 Winner of the 'MobileStar' Best 'Remote Access Management' Award
